The Internet

👁 21 ✓ 1 ⭐ 3

Chapter 1 by Feyre Archeron

The Internet is something that everyone uses. The Internet can be very dangerous. You have to be very careful about what you do on the Internet.

To take it to personally. The Internet does not need to be your life. Yeah, it's fun you can communicate to your friends, and distract your self from school work(FYI- don't do that, that's bad.)

Just be sure to be safe on the Internet. My sister was fooling around on a dating website, and she met this guy that's 2 years older than her and he wanted to meet up with her.

Do you even want to guess what happened next? Well, we never saw her from that point on until 3 years later. He kidnapped her. So here's a lesson for you to take granted. Be safe on the Internet.

Chapter 2 by WOOTmoo

500 years ago, there was no such thing as the internet. So people couldn't play CS:GO. This made life hard, as you weren't able to waste it.
